Minute by the Honourable Mr. Chamier—. Stating that he has all along been of the opinion that the Honourable Court's orders respecting the holding of lands by public servants in the districts in which they are employed should be enforced in Malabar and Canara, as well as elsewhere; that the reasons assigned for staying execution of the Honourable Court's orders in Malabar and Canara appear to him to be entirely without weight or solid foundation; that it appears to him to be very desirable that the extent to which purchases of land may have been effected by persons employed in the Judicial Department should also be ascertained; and that he willingly yields to His Lordship's desire to have further information on the subject. Cons., 16th Sept., No. 36, p. 5715

Minute by the Honourable Mr. Dickinson—. Thinking that as a general principle no native servant employed in the Revenue Department should be permitted to hold land in the district to which he is attached, that inconvenience would be felt at first in carrying out the rule in Malabar and Canara which should not be permanent exceptions to the general order and that a liberal time should be allowed for the public servants to dispose of their lands, at the expiration of which term every servant who had not done so should be dismissed from his office. Minute by the ditto—. Observing that in the supplementary estimate the sum of Rs. 243-13-0 is entered as required for the repair of the Coomahrumputty channel in Salem and an increase of revenue above the last year to the amount of Rs. 400 is expected to result from this outlay; further that Rs. 616 on an average of Rs. 123 annually has already been expended on the same work during the last five years and that the revenue in the last year of that period amounted only to Rs. 32; that, as the ayacut or total assessment of the lands under this channel is shewn to be only Rs. 434, it would appear that the increase alluded to is merely expected to arise from the total extent of lands under it becoming capable of cultivation by its repair but that after these results it should be ascertained, by reference to the actual Collections during the five years adverted to, whether the past expenditure has been profitable or otherwise; and that the Board of Public Works, should explain upon what grounds the present expectation of an increase is based and what security the Government possess that it will be realized. Finnie, Morris and Simpsone are the agents best calculated to carry out the views and intentions of the Honourable Court, for the improvement and extension of the cotton trade of Southern India; and that if it is desired to instruct the ryots in cultivating cotton, etc., success would be much more certain by employing the planters to remedy the defects in the native system, than to expect the ryot to succeed in an undertaking requiring capital.
